

Yard waste can be taken to land fill drop-off site located outside the Baling Facility.

(Open 7 days/week)

The Autumn season is upon us. We would like to send out a friendly reminder for residents to keep from blowing or raking lawn clippings, leaves, or any other debris into the streets.

Leaves raked into the street diminish water quality, clog storm drains, and cause flooding.

Do NOT rake/blow leaves into the street.

EARLY FALL LAWN CARE

Reminders

Sec. 31-4- Depositing, draining, etc., harmful materials into stormwater system.

It shall be unlawful for any person to discharge, deposit, dump, or drain, or cause to be discharged, deposited, dumped, or drained any liquid, solid or material which may degrade stormwater quality and/or is prohibited by City, State, Federal regulations, or policies in to the stormwater system. Such prohibition includes but is not limited to the disposal of fertilizer, chemicals, trash, construction materials, petroleum-based products, paints, etc. or glass clippings, leaves or other vegetative materials on impervious surfaces or within storm drainage systems, natural or manmade watercourses, wetlands, or wetland buffer areas, except as may be incidental to ordinary mowing or weed control within such areas.

(Ord. No. 1314, 12-4-06)
